COMMENTS:

This bill would require state agencies to overwrite or render uncoverable any data that is contained on surplus data storage hardware prior to disposing of, auctioning, or transferring the hardware from state possession.

Currently, the Franchise Tax Board (FTB) has procedures in place that require equipment such as hard-drives be swiped or wiped clean multiple times prior to any data hardware being transferred from FTB possession.

As written, this bill would not impact the department's programs and operations or state income tax revenue.
